Recently the Virginia Department of Transportation (VDOT) and Fairfax County Department of Transportation provided information to the campus regarding the Virginia Hot Lanes project and interchange improvements at the interchange at I-495 and Little River Turnpike. A five year construction project is underway affecting a significant portion of the I-495 beltway in our area. Although the interchange is to stay open during construction, there will undoubtedly be some impact upon traffic to and from the Annandale Campus. Please go to www.virginiahotlanes.com for more information.
