These activities may include loans and investments to start or expand small businesses, operating and working capital, property renovation or development, and financial services with a focus on small businesses impacted by the COVID pandemic. The entity may also provide services that help ensure that credit is used effectively, such as technical assistance to small businesses and credit counseling to consumers.

a. Out of this appropriation, $233,738,033 the second year from the general fund and $759,098 the second year from the Lottery Proceeds Fund is provided for the state share of a payment of up to a 5.0 percent salary increase effective July 1, 2021, for SOQ instructional and support positions. Funded SOQ instructional positions shall include the teacher, school counselor, librarian, instructional aide, principal, and assistant principal positions funded through the SOQ staffing standards for each school division in the biennium. This amount includes $1,046,023 the second year from the general fund referenced in paragraph C. 27. j. for the Academic Year Governor's Schools for the state share of a payment of the following salary increases for instructional and support positions, and this amount includes $759,098 the second year from the Lottery Proceeds Fund referenced in paragraph C. 9. f. 6) for Regional Alternative Education Programs for the state share of a payment of the following salary increases for instructional and support positions.

b. It is the intent that the instructional and support position salaries are increased in school divisions throughout the state by at least an average of 5.0 percent during the biennium. Sufficient funds are appropriated in this act to finance, on a statewide basis, the state share of up to a 5.0 percent salary increase the second year for funded SOQ instructional and support positions, effective July 1, 2021, to school divisions that certify to the Department of Education the average salary increase that has been or will have been provided during the 2020-2022 biennium to instructional and support personnel. The state funds for which the division is eligible to receive shall be matched by the local government, based on the composite index of local ability-to-pay, which shall be calculated using an effective date of July 1, 2021, as the basis for the local match requirement for both funded SOQ instructional and support positions.

c. The state share of funding provided to a school division in support of this compensation supplement shall be prorated for school divisions that provide less than an average 5.0 percent salary increase during the biennium; however, to access these funds, a school division must provide at least an average 2.0 percent salary increase during the biennium.

d. This funding is not intended as a mandate to increase salaries."

Explanation:
(This amendment provides $233.7 million the second year from the general fund and $759,098 the second year from the Lottery Proceeds fund to provide a 5.0 percent salary increase, effective July 1, 2021. This represents an addition of $153.6 million the second year, to the convert the 2.0 percent bonus payment that was proposed in the budget as introduced to a 5.0 percent salary increase. To access these funds, each school division must provide at least an average 2.0 percent pay increase during the 2020-22 biennium, and funding provided is prorated for school divisions providing between 2.0 percent and 5.0 percent pay increases over the biennium.)

The Board of Education shall make recommendations for: (i) appropriate staffing and funding levels necessary for State Operated Programs (SOP) in regional and local detention centers to provide a quality education program; (ii) implementation of appropriate efficiencies in staffing practices in such programs; (iii) statutory and regulatory changes needed to implement the Board's findings; and (iv) appropriate programs to redirect any potential savings realized from implementation of the Board's findings.

In developing such recommendations, the Board shall consider: (i) the dramatic decrease in the Average Daily Population in detention centers over the course of two decades without a comparable decrease in state funding; (ii) establishing a system-wide staffing ratio that is comparable to those provided in Regional Alternative Education Programs and aligned with the staffing requirements provided in the federal Prison Rape Elimination Act; (iii) implementing efficiencies, such as sharing SOP instructional staff with participating school divisions, hiring part-time teachers and dually-certified teachers and principals, and utilizing a lead teacher in lieu of a full-time principal in programs with a low average daily population; (iv) changes to SOP operating agreements to facilitate more efficient staffing practices and to clarify the role of the state and school divisions in hiring and supervising SOP instructional staff; (v) increasing the use of enhanced distance learning; and (vi) the draft recommendations deliberated by the Commission on Youth from the 2020 study.

The Board shall convene a workgroup to assist in the development of such findings and recommendations and shall include staff members from the Senate Finance and Appropriations Committee, House Appropriations Committee, Department of Planning and Budget, the Virginia Department of Education, the Department of Juvenile Justice, the President of the Virginia Juvenile Detention Association or his/her designee, the Chair of the Virginia Commission on Youth or his/her designee, and other representatives the Board deems appropriate. Findings and recommendations shall be reported to the Chairs of the House Appropriations Committee and the Senate Finance and Appropriations Committee by November 1, 2021."

Explanation:

(This amendment directs the Board of Education to develop recommendations for funding state operated programs in local and regional juvenile detention centers, which have experienced a significant decline in population in recent decades without an accompanying adjustment to state funding levels. **Explanation:**

(This amendment restores $250,000 from the general fund the second year provided during the 2020 regular session for SCHEV to implement the Guidance to Postsecondary Success (GPS) program. These funds were later unallotted. The purpose of this new initiative is to increase student transitions from high school to postsecondary education and also help students find the right fit for their future and in terms of costs. Each year, 25,000 high school graduates do not enroll in postsecondary education within 16 months, including significantly higher percentages for African-American, Hispanic and economically disadvantaged students. The pandemic and virtual learning environments in high schools are expected to exacerbate these inequitable outcomes in the coming year. Working closely with the Virginia Department of Education, SCHEV will seek to increase these enrollment rates through the development of materials and informational resources and the coordination of awareness events, professional development opportunities for secondary staff and partnerships with institutions, schools, school divisions and non-profit organizations. In addition, these funds will be used as a match for an upcoming SCHEV application for a federally-funded Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP) grant that also will focus on school division-specific and statewide outreach programs, as well as, required scholarships for eligible students.)

"F.1. It is the intent of the General Assembly that aging services be elevated in importance within state government, to include consideration of reestablishing a separate agency on aging under the Office of the Secretary of Health and Human Resources beginning July 1, 2022. Such an agency would oversee policies and programs impacting older Virginians and provide a leadership role across state government in evaluating the impact the aging population has on state services.

2. The Secretary of Health and Human Resources, or his designee, shall convene a workgroup that includes representatives from the Department for Aging and Rehabilitative Services, Area Agencies on Aging, the Virginia Association of Area Agencies on Aging, the Department of Planning and Budget, the Division of Legislative Services, appropriate staff from the House Appropriations and Senate Finance and Appropriations Committees, and other appropriate stakeholders. The workgroup shall: (i) review other state aging departments and best practices for offices of aging services that are fully capable of leading across state government with regard to the impacts of an aging population; (ii) review and develop an optimal organizational structure; (iii) develop a transition plan for transferring staff, funding and making other operational changes as needed; (iv) draft legislation for consideration by the 2022 General Assembly; (v) determine potential costs; and (vi) develop draft changes to the Appropriation Act. The workgroup shall, at a minimum, evaluate the most appropriate place that aging services, adult services, adult protective services and auxiliary grant programs should reside within state government. In addition, the workgroup shall examine any other aging-related programs in the Health and Human Resources Secretariat and make recommendations as appropriate to ensure coordination across such programs.

3. The workgroup shall provide all deliverables and report on its findings by December 1, 2021, to the Governor, the Department of Planning and Budget, and the Chairs of House Appropriations and Senate Finance and Appropriations Committees."

**Explanation:**

(This amendment provides that it is the intent of the General Assembly elevate aging services within state government to include considering the establishment of a new agency for aging services under the Office of the Secretary of Health and Human Resources, beginning July 1,

Funding for this Item was unallotted in April, 2020 and eliminated in Chapter 56, 2020 Special Session I Acts of Assembly. The program would increase the number of Virginia behavioral health practitioners through the establishment of an educational loan repayment incentive that complements and coordinates with existing efforts to recruit and retain Virginia behavioral health practitioners. The program would allow for a variety of behavioral health practitioners to receive a student loan repayment award from the Commonwealth in exchange for providing service to Virginia communities that are otherwise underserved. Practitioners would receive loan repayment for up to 25 percent of student loan debt for each year of health care service provided to the Commonwealth. Maximum loan repayment amounts per year are dependent upon the type of behavioral health professional applying and shall not exceed the total student loan debt. Participating practitioners will have an initial two-year minimum participation obligation and may renew for a third and fourth year. This provides the practitioner with the opportunity to fully pay off their student loan debt while providing four years of service to the Commonwealth. "I. Out of this appropriation, $305,000 the first year and $805,000 the second year from the general fund is provided for a comprehensive adult program for sickle cell disease."

**Explanation:**

(This amendment adds $500,000 the second year from the general fund and half of a position for the comprehensive adult sickle cell disease (SCD) program. Language sets out total funding for this program. Chapter 1289, 2020 Virginia Acts of Assembly provided $305,000 each year of the biennium for adult sickle cell disease services. This amendment would bring the total funding in the second year to $805,000.)

communicable disease surveillance and investigation efforts across the Office of Epidemiology and the 35 local health districts in Virginia. The introduced budget funded 12 epidemiologists and 12 communicable disease nurses across the 35 health districts and funded two epidemiology program managers in the Office of Epidemiology in the Central Office. **Explanation:**

(This amendment reduces $7.4 million the second year from the general fund by phasing in over three years the increase in local matching funds and the increase in state support for the updates to the local health department cooperative funding formula. The introduced budget provided $10.2 million, which included funding for a hold harmless in fiscal year 2022, to implement the funding formula changes. This amendment reflects one-third of the state impact in the second year as the changes are phased in over three years and, as such, a hold harmless is not necessary.)

Coastal Virginia. Such vertically elevated septic system, including holding tank and treatment unit, shall have no physical contact with land; shall be vertically elevated on columns, piers, or other structures that provide for the flow of surface water underneath the septic unit; shall be elevated above the storm surge and flood inundation levels; and shall be designed to meet pollution removal standards of the Department of Health and Department of Environmental Quality. Such vertically elevated septic system shall be installed in an upland location in the Middle Peninsula outside of any designated Resource Protection Area or floodplain.

2. By December 1 of each year, the Middle Peninsula Planning District Commission shall submit a report to the Governor and General Assembly with the following information: (i) the feasibility of elevating the parts of septic systems vulnerable to rising sea levels; (ii) optimal system design, or range of designs, for vertically elevated septic systems capable of withstanding sea level rise and chronic flooding that meets effluent standards; (iii) recommendations for legal or regulatory changes, if any, to authorize the use of vertically elevated septic systems; (iv) recommendations for amending current septic system permit requirements to allow for the use of vertically elevated septic systems; (v) recommendations for financing the installation of vertically elevated septic systems; (vi) the expected date of completion of the pilot program; (vii) installation and projected average annual maintenance costs for a vertically elevated septic system over 10 years; and (viii) any other pertinent information.

Explanation:

(This amendment adds language directing the Virginia Department of Health (VDH) and Department of Environmental Quality, in partnership with the Middle Peninsula Planning District Commission, to initiate a three-year pilot program designed to study the use of engineered septic systems that house and treat sewage effluent in an elevated, self-contained unit suitable for areas with high water tables and susceptible to flooding in Coastal Virginia. The federal Families First Coronavirus and Response Act, passed in March 2020, increased the federal match rate for Medicaid by 6.2 percentage points until the end of the quarter in which the declared public health emergency (PHE) due to COVID-19 expires. The CHIP match rate factors in the Medicaid match rate and is therefore increased, but at an enhanced match rate of 4.34 percent. The PHE is extended in 90-day increments and was recently extended into the fourth quarter of fiscal year 2021. In addition, the Acting U.S. Secretary of Health and Human Services has informed all state Governors of their intention to extend the PHE through the end of calendar year 2021 to provide greater budget certainty to states. The federal Patient Protection and Affordable Care Act (ACA) requires that Medicaid provide coverage for prevention services, including tobacco cessation, for individuals enrolled pursuant to the ACA. This amendment allows all adults in Medicaid to have access to tobacco cessation services. Funding for this Item was provided in Chapter 1289, 2020 Virginia Acts of Assembly, unallotted in April, 2020 and eliminated in Chapter 56, 2020 Special Session I Virginia Acts of Assembly. Language is modified to make the provision of this benefit effective July 1, 2021.)

"AAAAAA. The Department shall amend the State Plan for Medical Assistance to allow payment of medical assistance services delivered to Medicaid-eligible students when such services qualify for reimbursement by the Virginia Medicaid program and may be provided by school divisions, regardless of whether the student receiving care has an individualized education program or whether the health care service is included in a student's individualized education program. Such services shall include those covered under the state plan for medical assistance services or by the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) benefit as specified in § 1905(r) of the federal Social Security Act, and shall include a provision for payment of medical assistance for health care services provided through telemedicine services, as defined in § 38.2-3418.16. No health care provider who provides health care services through telemedicine shall be required to use proprietary technology or applications in order to be reimbursed for providing telemedicine services."

Explanation:

(This amendment provides $2.3 million from federal Medicaid funds the second year related to expanding Medicaid coverage of school-based services outside of a student's individualized education program. There is no state match required as the local schools certify local expenditures as the state match. The amendment also reflects a savings of $104,168 from the general fund the second year since five percent of the additional federal funding for school-based services is retained by the state and deposited to the Health Care Fund to offset general fund costs.)

**Explanation:**

(This amendment reflects the savings to the general fund in the first year from the receipt of $39.4 million in increased revenue in the Virginia Health Care Fund. The increased revenue is due to the receipt of escrow funds from a cigarette manufacturer that did not participate in the 1998 Tobacco Mater Settlement Agreement with state Attorney Generals and instead made payments into an escrow fund as required by the Code of Virginia. This nonparticipating manufacturer is closing and has chosen to assign rights to its escrow funds as permitted by statute in return for the right to retain a portion of those funds. For Virginia, this represents a one-time unanticipated payment of $39,410,177, which is required to be deposited into the...
Virginia Health Care Fund pursuant to § 3.2-4203 of the Code of Virginia. In addition, language also clarifies that repayments from managed care organizations are to be deposited to the Health Care Fund.)

The department shall adjust capitation payments to Medicaid managed care organizations to fund this percentage increase. Both the contract changes and capitation rate adjustments shall be compliant with 42 C.F.R. 438.6(c)(1)(iii) and subject to CMS approval. The department shall have the authority to implement these reimbursement changes consistent with the effective date(s) approved by the Centers for Medicare and Medicaid (CMS). No payments shall be made without CMS approval. The originating funding for this program will come entirely from Lake Taylor for Lake Taylor."

**Explanation:**

(This amendment provides $5.4 million the second year from nongeneral funds to increase payments to Lake Taylor Transitional Care Hospital, a non-state government operated hospital located in Norfolk, Virginia. Language allows the Department of Medical Assistance Services to make a supplemental payment for allowable costs and adjust capitation payments to be consistent with the fee for service supplemental payment percentage increase. Language requires the hospital to provide the funding to match the federal reimbursement for the supplemental payment.)
(This amendment captures $114.9 million from the general fund the first year and $191.6 million from the general fund the second year and a corresponding increase in federal Medicaid matching funds to reflect the savings to the Commonwealth pursuant to enhanced federal matching funds for the fourth quarter of fiscal year 2021 and the first and second quarters of fiscal year 2022. The federal Families First Coronavirus and Response Act, passed in March 2020, increased the federal match rate for Medicaid by 6.2 percentage points until the end of the quarter in which the declared public health emergency (PHE) due to COVID-19 expires. The PHE is extended in 90-day increments and was recently extended into the fourth quarter of state fiscal year 2021. In addition, the Acting U.S. Secretary of Health and Human Services has informed all state Governors of their intention to extend the PHE through the end of calendar year 2021 to provide greater budget certainty to states. Therefore, this amendment also captures the savings from the first and second quarters of fiscal year 2022. The general fund savings for the state behavioral health facilities are also factored into these numbers and total $808,764 the first year and $1.8 million the second year.)

Explanation:
(This amendment adds language directing the Department of Medical Assistance Services to defer nursing home rebasing until it is able to use 2021 cost reports in the rebasing process. Under the current rebasing schedule, cost reports ending in calendar year (CY) 2020 will be the basis of the next nursing facility rate rebasing. Due to the COVID-19 pandemic, the 2020 base year cost reports will contain significant variable data that reflects a mixture of increased costs (some permanent, others temporary) and reduced occupancy. Given the COVID-19 vaccination program, it is expected that the 2021 cost reports would not be as affected by the increased costs associated with the COVID-19 pandemic, and would better reflect ongoing Medicaid costs as a basis for the next rebasing.)

The methodology and timing for the Virginia nursing facility VBP program, including structures for nursing facility performance accountability and disbursement of earned financial incentives, shall be completed no later than December 31, 2021, with the program targeted to begin no later than July 1, 2022. Nursing facility performance evaluation under the program shall prioritize maintenance of adequate staffing levels and avoidance of negative care events, such as hospital admissions and emergency department visits. The program may also consider performance evaluation in the areas of preventive care, utilization of home and community based services, including community transitions, and other relevant domains of care.

b. During the first year of this program, half of the available funding shall be distributed to participating nursing facilities to be invested in functions, staffing, and other efforts necessary to build their capacity to enhance the quality of care furnished to Medicaid members. The amount of funding devoted to nursing facility quality of care investments shall be 25 percent of available funding in the second year of the program before the program transitions to payments based solely on nursing facility performance criteria in the third year of the program. In the third year of this program, such funds as appropriated for this purpose shall be fully disbursed according to the aforementioned unified VBP arrangement to participating nursing facilities that qualify for the enhanced funding.

c. The department shall convene the stakeholders no less than annually through at least the first two years of the program to review program progress and discuss potential modifications to components of the arrangement, including, but not limited to, timing of enhanced payments, performance metrics, and threshold determinations. The department shall implement the necessary regulatory changes and other necessary measures to be consistent with federal approval of any appropriate changes to the state plan or relevant waivers thereof, and prior to the completion of any regulatory process undertaken to effect such change."

Explanation:

(This amendment adds $46.7 million the second year from the general fund and $46.7 million in nongeneral funds and one position to provide an increased payment add-on roughly equivalent to $15 per day in fiscal year 2022. Language directs the Department of Medical Assistance Services to work with appropriate nursing facility stakeholders and the Medicaid CCC Plus managed care organizations to develop a unified, value-based purchasing program that includes enhanced funding for facilities that meet or exceed performance and/or improvement thresholds as developed, reported, and consistently measured by DMAS in cooperation with participating facilities. Priority areas targeted for improvement would be adequate staffing levels and avoidance of negative care events, such as hospital admissions and emergency department visits, among others. The value-based purchasing program would be implemented on July 1, 2022. Funding for the additional position can be accommodated within the agency's existing administrative budget based on turnover and vacancy savings and the reallocation of funding for this program.)

amend the State Plan for Medical Assistance to adjust the formula for indirect medical education (IME) reimbursement for managed care discharges for freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009 by increasing the case mix adjustment factor to 2.718. This increased case mix index (CMI) factor shall take precedence over future rebasing. Total payments for IME in combination with other payments for freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009 may not exceed the federal uncompensated care cost limit that disproportionate share hospital payments are subject to. The department shall have the authority to implement these changes prior to completion of any regulatory process undertaken in order to effect such change.

2. The Department of Medical Assistance Services shall work with the freestanding children's hospitals to assess the method used to determine the case mix adjustment factor and what factors may be influencing changes that result in significant funding shifts when rebasing occurs."

Explanation:

(This amendment adds funding and language directing the Department of Medical Assistance Services to adjust the formula used to calculate indirect medical education reimbursement for managed care discharges at Children's Hospital of the King's Daughters (CHKD). This change would partially restore CHKD's case mix index (CMI) factor, which had been reduced in fiscal year 2020. The change is intended to stabilize CHKD’s IME funding levels so the hospital is not subject to dramatic fluctuations in future Medicaid payments that occur with rebasing and changes in federal policy, and would be consistent with historic levels of state support. Language requires the agency to work with the hospital to examine the methodology used to determine the case mix adjustment and factors influencing changes when rebasing occurs. The IME payments are matched by the federal government on a 50/50 basis.)

**Explanation:**

(This amendment adds language requiring the Department of Medical Assistance Services to convene a work group to develop a plan to implement a pilot program to provide mobile vision clinic services for Medicaid, FAMIS and MCHIP children in a school-based setting. Language requires the work group to report its recommendations by October 15, 2021.)

The federal Families First Coronavirus and Response Act, passed in March 2020, increased the federal match rate for Medicaid by 6.2 percentage points until the end of the quarter in which the declared public health emergency (PHE) due to COVID-19 expires. The CHIP match rate factors in the Medicaid match rate and is therefore increased, but at an enhanced match rate of 4.34 percent. The PHE is extended in 90-day increments and was recently extended into the fourth quarter of state fiscal year 2021. In addition, the Acting U.S. Secretary of Health and Human Services has informed all state Governors of their intention to extend the PHE through the end of calendar year 2021 to provide greater budget certainty to states. Therefore, this amendment also captures the savings from the first and second quarters of state fiscal year 2022.)

**Explanation:**

of calendar year 2021 to provide greater budget certainty to states. Therefore, this amendment also captures the savings from the first and second quarters of state fiscal year 2022. The work group shall determine how to best measure performance of the system, identify utilization trends and outcomes, and make any recommendations for system improvements to the Governor and General Assembly by December 1, 2021."

Explanation:

(This amendment adds $1.3 million from the general fund and $3.8 million from enhanced federal Medicaid Management Information Systems matching funds to continue funding for the Emergency Department Care Coordination (EDCC) Program and complete several enhancements which should result in cost savings to the Commonwealth and higher quality care
for Medicaid and FAMIS beneficiaries. The 2017 General Assembly established the EDCC program to provide a single, statewide technology solution that connects all hospital emergency departments in the Commonwealth to facilitate real-time communication and collaboration among physicians, other healthcare providers and other clinical and care management personnel for patients receiving services in hospital emergency departments for the purpose of improving the quality of patient care services. The program also integrates the state’s Prescription Monitoring Program and the Advance Healthcare Directive Registry. To date, 100% of hospital Emergency Departments and health plans participate in the EDCC Program. The program has been successful in supporting a reduction in opioid overdoses since its implementation and has been critical in coordinating responses to the COVID-19 pandemic. The program has been funded through federal HITECH funding which provides a 90% federal match rate, but the federal funding will end on September 30, 2021. The amendment leverages available federal Medicaid Management Information Systems funding to complete the system enhancements at a 75% federal match rate. Conference Report to House Bill 1800

Explanation:
(This amendment provides $670,476 from the general fund and $7.7 million from nongeneral funds the second year to increase Temporary Assistance to Needy Families (TANF) benefits by ten percent. The general fund amount reflects the increase for the TANF Unemployed Parent program which is state-funded. The General Assembly provided a 15 percent increase beginning July 1, 2020, bringing the average monthly payment for a TANF family to $361. Language requires the Department of Social Services to develop a plan to increase the standards of assistance by 10 percent annually until the standards equal 50 percent of the federal poverty level. TANF eligibility is tied to the monthly cash assistance value. In 1985, a three person family in the City of Richmond could be eligible with net income below 48 percent of the federal poverty level. To qualify now, the family's net income must be less than 30 percent of the federal poverty level.)

Explanation:

(This amendment captures $2.9 million the first year and $5.8 million the second year from the general fund and includes an offsetting amount of federal Title IV-E foster care funding to reflect a higher federal match rate. The federal Families First Coronavirus and Response Act, passed in March 2020, increased the federal match rate for Medicaid by 6.2 percentage points until the end of the quarter in which the declared COVID-19 public health emergency (PHE) expires. The federal Title IV-E programs used the Medicaid match rate to determine the state and federal share of the program. The PHE is extended in 90-day increments and was recently extended into the fourth quarter of state fiscal year 2021. In addition, the Acting U.S. Secretary of Health and Human Services has informed all state Governors of their intention to extend the PHE through the end of calendar year 2021 to provide greater budget certainty to states. Therefore, this amendment also captures the savings from the first and second quarters of state fiscal year 2022.)

A corresponding amendment in the Children's Services Act reflects the increase in maintenance payments from the State KinGAP program while this amendment reflects the decrease in Title IV-E program costs as some children will transition to the State-Funded Kinship Guardianship Assistance Program, which has lower maintenance payments than the Title IV-E program.)

Explanation:
(This amendment provides $250,000 the second year from the general fund to expand inmate
access to and offset inmate costs of using prison family video visitation services. The purpose of
this legislative budget amendment is to promote public safety by allowing constructive
reintegration for offenders with their families and children, to increase family and community
ties prior to the release of the offender, to decrease the likelihood of recidivism and to reduce
State financial burdens by actively engaging non-custodial parents in the support and parenting
of their children. This amendment is also intended to subsidize rates to assure family visitations.
This program strategy focuses on meeting the challenges that impede family reunification and is
integrated into other transitional programs that establish, reestablish or maintain family ties and
communications.)

H. I. In carrying out the intent of this item, the federal funds provided in this item may be exchanged for existing state funds, as needed and at the discretion of the Commonwealth Transportation Board, to meet federal eligibility requirements provided the amount of the funding exchanged does not reduce or increase total funding available for the 2021 Transportation Funding Initiative.

J. "9. Notwithstanding any other provision of law, a public institution of higher education may participate in the United States Department of Education Historically Black College and University Capital Financing Program (HBCU Program), and use federal grant and contract funds as permitted by the Program."

**Explanation:**

(This amendment is intended to ensure that Virginia's public historically black colleges and universities (HBCU) may access the United States Department of Education Historically Black College and University Capital Financing Program (HBCU Program). The HBCU Program requires that institutions be able to use revenue from federal grants and contracts via administrative offset if the pledged revenues are insufficient to pay debt service. The HBCU Program provides HBCUs with low-cost capital to finance infrastructure improvements, facilitating the repair, renovation, and construction of classrooms, libraries, laboratories, dormitories, instructional equipment, and research instrumentation.)

$6,579,237

Explanation:
(This amendment provides bond authorization to begin improvements and upgrades to the East Campus Steam Plant. The original East Campus Steam Plant was purchased from the City of Harrisonburg in 2017 and housed two trash-burning boilers and a steam turbine; it now houses two 35,000 pph boilers, three steam-turbine driven chillers, one electric chiller, and two cooling towers. All of the equipment was poorly maintained while in the city’s care. The existing boiler equipment and the #2 chiller is rundown and a serious risk for catastrophic failure which would cause the university to shutter buildings. It is critical to remove and replace the existing 35,000 pph boilers, #2 chiller immediately and associated equipment. Total project cost for this phase of work is $6,579,237 and includes $4,605,466 in VCBA bonds and $1,973,771 in auxiliary nongeneral funds. Future phases of this project will include the new boilers relocating to the future boiler building and an additional 80,000 pph boiler to increase current boiler capacity from 180,000 pph to 250,000 pph to cover existing and proposed future loads.)

(This amendment modifies the coverage assessment amount collected from hospitals to cover the state share of Medicaid expansion costs. Current law requires the collection of 108 percent of the state share of the full costs of expanded Medicaid coverage. The original intent was to ensure that collections were sufficient to cover the full cost of expansion and not rely on any general fund dollars to expand Medicaid. Rate assessment language has since been amended to allow the Department of Medical Assistance Services (DMAS) to adjust assessments with each quarter to account for differences between estimates and actual spending, however, the 108 percent collection requirement is applied to the estimate for the entire year and not just the remaining quarters. In addition, DMAS now has more experience with expansion and hospital overpayments in the first two years of the program have far exceeded the additional eight percent add-on. Reducing the add-on from eight to two percent would reduce the amount of overpayment made each year by the hospitals into the Health Care Coverage Assessment Fund.)

**Explanation:**

(This amendment modifies language related to the hospital provider payment rate assessment to change the methodology to enable the hospitals to obtain additional federal dollars with no
additional cost to the Commonwealth. Current budget language limits supplemental payments by the upper payment limit gap for fee-for-service claims and extrapolates that gap to managed care claims. Because over 90 percent of Medicaid enrollees are in managed care, this gap can be highly variable on an annual basis and can limit total rate enhancement. The federal Centers for Medicare and Medicaid Services (CMS) has provided other states the flexibility to structure managed care directed payments as a percentage of Medicare. However, the introduced budget language is highly prescriptive and limits the department's ability to explore and apply an alternate methodology which could potentially stabilize or increase total supplemental payments.

**Corporate Income Tax Informational Reporting**

**Language:**

Page 664, after line 37, insert:

"§ 3-5.23 CORPORATE INCOME TAX INFORMATIONAL REPORTING

A.1. Corporations that are members of a unitary business must file a report, in a manner prescribed by the Tax Commissioner, for the unitary combined group containing the unitary combined net income of such group. The report shall be based on taxable year 2019 computations and include, at a minimum the difference in tax owed as a result of filing a unitary combined report, computed according to the method or methods specified by the Tax Commissioner, compared to the tax owed under the current filing requirements.

2. "Unitary business" means a single economic enterprise made up either of separate parts of a single business entity or of a commonly controlled group of business entities that are sufficiently interdependent, integrated, and interrelated through their activities so as to provide a synergy and mutual benefit that produces a sharing or exchange of value among them and a significant flow of value to the separate parts. A "unitary business" includes that part of the business that meets the definition in this section and is conducted by a taxpayer through the taxpayer's interest in a partnership, whether the interest in that partnership is held directly or indirectly through a series of partnerships or other pass-through entities. A "unitary business" shall not include persons subject to, or that would be subject to if doing business in the Commonwealth, the insurance premiums license tax under Chapter 25 (§ 58.1-2500 et seq.), Code of Virginia, or the bank franchise tax under Chapter 12 (§ 58.1-1200 et seq.)

3. The report must be submitted to the Department of Taxation on or before June 1, 2021, which date shall not be extended.

4. Members of a unitary combined group shall exclude as a member and disregard the income and apportionment factors of any corporation incorporated in a foreign jurisdiction (a "foreign corporation") if the average of its property, payroll and sales factors outside the United States is
eighty percent (80%) or more. If a foreign corporation is includible as a member in the unitary combined group, to the extent that such foreign corporation's income is subject to the provisions of a federal income tax treaty, such income is not includible in the unitary combined group net income. Such member shall also not include in the unitary combined report any expenses or apportionment factors attributable to income that is subject to the provisions of a federal income tax treaty. For purposes of this paragraph, "federal income tax treaty" means a comprehensive income tax treaty between the United States and a foreign jurisdiction, other than a foreign jurisdiction which the organization for economic co-operation and development has determined has not committed to the internationally agreed tax standard, or has committed to the international agreed tax standard but has not yet substantially implemented that standard, as identified in the then-current organization for economic co-operation and development progress report.

B. Any corporation required to submit such report to the Department of Taxation that fails to do so on or before June 1, 2021, or that makes a material omission or misstatement in connection with such report shall be subject to a penalty of $10,000. The Tax Commissioner shall have the authority to waive such penalty upon a determination that the requirement would cause an undue hardship. All requests for waiver shall be transmitted to the Tax Commissioner in writing.

C. The Tax Commissioner shall on or before December 1, 2021, based on the information provided in income tax returns and the data submitted under this section, submit a report to the Chair of the Senate Finance and Appropriations Committee, the Chair of the House Appropriations Committee, and the Chair of the House Finance Committee."

Explanation:

(This amendment requires corporations that are members of a unitary business to file an informational report with the Department of Taxation for the unitary combined group containing the unitary combined net income of the group. For married taxpayers filing separately, the deduction shall be reduced by $1 for every $1 that the total combined adjusted federal adjusted gross income of both spouses exceeds $75,000.

A. For purposes of this article, Virginia taxable income for a taxable year means the federal taxable income and any other income taxable to the corporation under federal law for such year of a corporation adjusted as provided in subsections B, C, D, E, and G, and H.

For a regulated investment company and a real estate investment trust, such term means the "investment company taxable income" and "real estate investment trust taxable income," respectively, to which shall be added in each case any amount of capital gains and any other income taxable to the corporation under federal law which shall be further adjusted as provided in subsections B, C, D, E, and G, and H.

B. There shall be added to the extent excluded from federal taxable income:

2. Interest or dividends, less related expenses to the extent not deducted in determining federal taxable income, on obligations or securities of any authority, commission or instrumentality of the United States, which the laws of the United States exempt from federal income tax but not from state income taxes;

3. [Repealed.]

(2) The related member derives at least one-third of its gross revenues from the licensing of intangible property to parties who are not related members, and the transaction giving rise to the expenses and costs between the corporation and the related member was made at rates and terms comparable to the rates and terms of agreements that the related member has entered into with parties who are not related members for the licensing of intangible property; or

(3) The corporation can establish to the satisfaction of the Tax Commissioner that the intangible expenses and costs meet both of the following: (i) the related member during the same taxable year directly or indirectly paid, accrued or incurred such portion to a person who is not a related member, and (ii) the transaction giving rise to the intangible expenses and costs between the corporation and the related member did not have as a principal purpose the avoidance of any portion of the tax due under this chapter.

b. A corporation required to add to its federal taxable income intangible expenses and costs pursuant to subdivision a may petition the Tax Commissioner, after filing the related income tax return for the taxable year and remitting to the Tax Commissioner all taxes, penalties, and interest due under this article for such taxable year including tax upon any amount of intangible expenses and costs required to be added to federal taxable income pursuant to subdivision a, to consider evidence relating to the transaction or transactions between the corporation and a related member or members that resulted in the corporation's taxable income being increased, as required under subdivision a, for such intangible expenses and costs.

If the corporation can demonstrate to the Tax Commissioner's sole satisfaction, by clear and convincing evidence, that the transaction or transactions between the corporation and a related member or members resulting in such increase in taxable income pursuant to subdivision a had a valid business purpose other than the avoidance or reduction of the tax due under this chapter, the Tax Commissioner shall permit the corporation to file an amended return. For purposes of such amended return, the requirements of subdivision a shall not apply to any transaction for which the Tax Commissioner is satisfied (and has identified) that the transaction had a valid business purpose other than the avoidance or reduction of the tax due under this chapter. Such amended return shall be filed by the corporation within one year of the written permission granted by the Tax Commissioner and any refund of the tax imposed under this article shall include interest at a rate equal to the rate of interest established under § 58.1-15 and such interest shall accrue as provided under § 58.1-1833. However, upon the filing of such amended return, any related member of the corporation that subtracted from taxable income amounts received pursuant to subdivision C 21 shall be subject to the tax imposed under this article on that portion of such amounts for which the corporation has filed an amended return pursuant to this subdivision. In addition, for such transactions identified by the Tax Commissioner herein by which he has been satisfied by clear and convincing evidence, the Tax Commissioner may
permit the corporation in filing income tax returns for subsequent taxable years to deduct the related intangible expenses and costs without making the adjustment under subdivision a.

The Tax Commissioner may charge a fee for all direct and indirect costs relating to the review of any petition pursuant to this subdivision, to include costs necessary to secure outside experts in evaluating the petition. The Tax Commissioner may condition the review of any petition pursuant to this subdivision upon payment of such fee.

No suit for the purpose of contesting any action of the Tax Commissioner under this subdivision shall be maintained in any court of this Commonwealth.

c. Nothing in subdivision B 8 shall be construed to limit or negate the Department's authority under § 58.1-446;

9. a. For taxable years beginning on and after January 1, 2004, the amount of any interest expenses and costs directly or indirectly paid, accrued, or incurred to, or in connection directly or indirectly with one or more direct or indirect transactions with one or more related members to the extent such expenses and costs were deductible or deducted in computing federal taxable income for Virginia purposes. This addition shall not be required for any portion of the interest expenses and costs, if:

(1) The related member has substantial business operations relating to interest-generating activities, in which the related member pays expenses for at least five full-time employees who maintain, manage, defend or are otherwise responsible for operations or administration relating to the interest-generating activities; and

(2) The interest expenses and costs are not directly or indirectly for, related to or in connection with the direct or indirect acquisition, maintenance, management, sale, exchange, or disposition of intangible property; and

(3) The transaction giving rise to the expenses and costs between the corporation and the related member has a valid business purpose other than the avoidance or reduction of taxation and payments between the parties are made at arm's length rates and terms; and

b. A corporation required to add to its federal taxable income interest expenses and costs pursuant to subdivision a may petition the Tax Commissioner, after filing the related income tax return for the taxable year and remitting to the Tax Commissioner all taxes, penalties, and interest due under this article for such taxable year including tax upon any amount of interest expenses and costs required to be added to federal taxable income pursuant to subdivision a, to consider evidence relating to the transaction or transactions between the corporation and a related member or members that resulted in the corporation's taxable income being increased, as required under subdivision a, for such interest expenses and costs.

If the corporation can demonstrate to the Tax Commissioner's sole satisfaction, by clear and convincing evidence, that the transaction or transactions between the corporation and a related member or members resulting in such increase in taxable income pursuant to subdivision a had a valid business purpose other than the avoidance or reduction of the tax due under this chapter and that the related payments between the parties were made at arm's length rates and terms, the Tax Commissioner shall permit the corporation to file an amended return. For purposes of such amended return, the requirements of subdivision a shall not apply to any transaction for which the Tax Commissioner is satisfied (and has identified) that the transaction had a valid business purpose other than the avoidance or reduction of the tax due under this chapter and that the related payments between the parties were made at arm's length rates and terms. Such amended return shall be filed by the corporation within one year of the written permission granted by the Tax Commissioner and any refund of the tax imposed under this article shall include interest at a rate equal to the rate of interest established under § 58.1-15 and such interest shall accrue as provided under § 58.1-1833. However, upon the filing of such amended return, any related member of the corporation that subtracted from taxable income amounts received pursuant to subdivision C 21 shall be subject to the tax imposed under this article on that portion of such amounts for which the corporation has filed an amended return pursuant to this subdivision. In addition, for such transactions identified by the Tax Commissioner herein by which he has been satisfied by clear and convincing evidence, the Tax Commissioner may permit the corporation in filing income tax returns for subsequent taxable years to deduct the related interest expenses and costs without making the adjustment under subdivision a.

The Tax Commissioner may charge a fee for all direct and indirect costs relating to the review of any petition pursuant to this subdivision, to include costs necessary to secure outside experts in evaluating the petition. The Tax Commissioner may condition the review of any petition pursuant to this subdivision upon payment of such fee.

No suit for the purpose of contesting any action of the Tax Commissioner under this subdivision

“3. If rent is unpaid when due, or if a payment under the terms of a payment plan is unpaid when due, the landlord shall, pursuant to § 55.1-1202, Code of Virginia, serve a written notice on the tenant that informs the tenant of the Virginia Rent Relief Program (formerly Virginia Rent and Mortgage Relief Program) and provides the website address and statewide telephone number for that program. The written notice shall also provide information on how to reach 2-1-1 Virginia to determine whether there are any other available federal, state and local rent relief programs. The written notice shall also inform the tenant that the owner, landlord, or owner's licensed agent shall apply for rental assistance on the tenant's behalf within 14 days of serving the notice on the tenant, unless the tenant pays in full, enters into a payment plan or informs the landlord that they have already applied for rental assistance. The landlord shall apply for rental assistance on behalf of the tenant no later than 14 days after serving the written notice on the tenant, unless they receive the full amount owed by the tenant or confirmation from the tenant that the tenant has applied for rental assistance before the 14th day, or they have entered into a payment plan with the tenant. If the tenant has applied for rental assistance, the landlord shall cooperate with the tenant's application, by providing all information and documentation required to complete the application, including but not limited to the W-9 IRS form and any supporting affidavits. In an initial application, if the landlord or the tenant does not receive written approval from the Virginia Rent Relief Program (formerly Virginia Rent and Mortgage Relief Program) or any other federal, state, or local rent relief program within forty-five days of when the application for assistance is made by the tenant or the landlord, the landlord may proceed to obtain possession of the premise as provided in § 55.1-1251. For any subsequent application, if the landlord or tenant does not receive written approval from the Virginia Rent Relief Program (formerly Virginia Rent and Mortgage Relief Program) or any other federal, state, or local rent relief program within fourteen days of submission of the subsequent application, the landlord may proceed to obtain possession of the premises as provided in § 55.1-1251. If a tenant who has not paid in full or entered into a payment plan with the landlord within 14 days after the written notice is served refuses to apply for rental assistance and also
refuses to cooperate with the landlord in providing information and documentation required to complete the application made by the landlord, or if such tenant is determined ineligible for rental assistance, or there are no longer funds available through any federal, state or local rental assistance program, the landlord may take action to obtain possession of the tenant's dwelling unit as provided in § 55.1-1251, Code of Virginia.”
