

Getting to Know Virginia's Uninsured...

Health and Human Resources Subcommittee
Senate Finance Committee

January 20, 2014

Virginia Health Care Foundation

One Million Virginians Are Uninsured

Nearly **15%** of
Virginians under age 65 are with-
out health insurance

70%
are part of
working families

79%
are US citizens

They represent all racial/ethnic groups

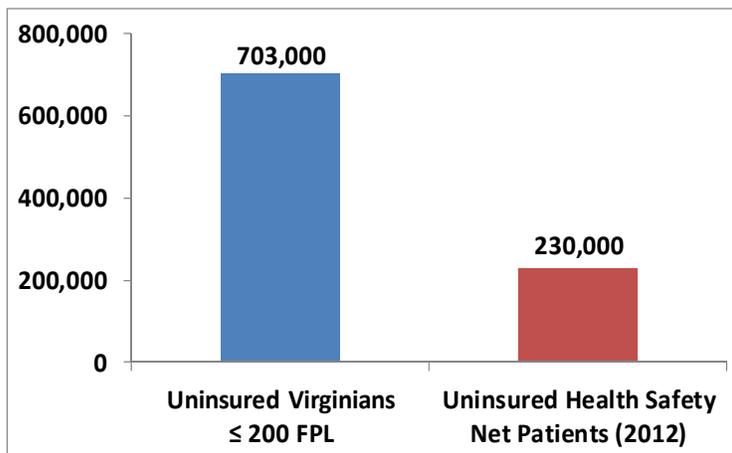

47% are white

29% are black

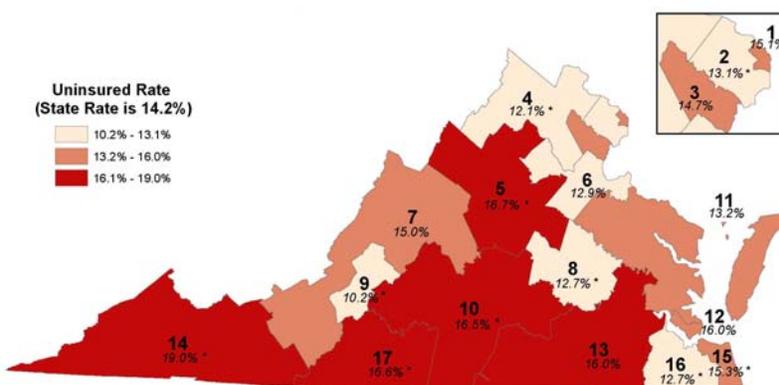

20% are Hispanic

7% are Asian/Pacific Islanders

Health Safety Net Capacity Is Limited

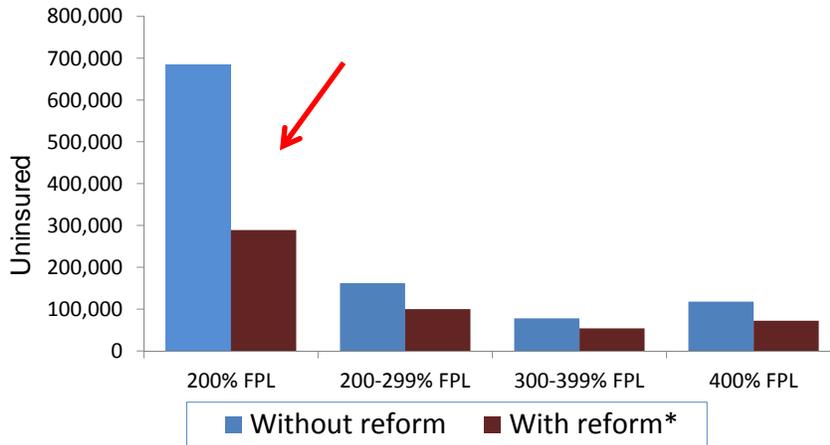

Uninsured Rate Among Nonelderly (0-64) in Virginia by Area, 2011

Source: Urban Institute, September 2013. Based on the 2011 American Community Survey (ACS) data from the Integrated Public Use Microdata Series (IPUMS) of the Minnesota Population Center.
 * Shaded areas represent regions of Virginia which are defined in terms of counties or a combination of counties (see "Guide to Regions in Virginia").
 Note: The estimates reflect Urban Institute adjustments for potential misreporting of coverage, based on a simulation model developed by Victoria Lynch under a grant from the Robert Wood Johnson Foundation.
 ** Indicates that the uninsured rate for the region is statistically different from the uninsured rate for the areas in the rest of the state at the 0.1 level.

Decline in Uninsured Virginians by Income Group

Source: Urban Institute analysis, HIPSM 2011

*Note: We simulate provisions of the Affordable Care Act fully implemented in 2011.
